From what I -- like you lay a sticky trap down, and you 3 A. What, the conversation, or what am I referring to? 4 see like rodent droppings on there, yeah, but I wouldn't -- I 4 Q. Yeah. Do you remember the conversation, and do you didn't stand there and watch it all hours of the day. 5 also remember what is being described, this EID inspection from 6 Q. Okay. Did any of your Summit colleagues see rodents 6 January 2019? coming in and out of that hole or inmates who reported it to you? A. Um. I wasn't there. I remember that because, like I 8 A. Not that I can remember. It was just like an eyesore, 8 said, I fell in the maze, but I remember seeing the fire safety 9 9 just something you can see. come in in the morning meeting. He said: You guys did pass. 10 O. The hole was an evesore? 10 However, there is still the rodent issue. 11 11 Let me just understand that. I don't remember the exact conversation, like what we 12 12 I mean, your objection wasn't to there being a hole were referring to at the moment. 13 13 Q. Did you review this communication before the deposition there; was it? 14 14 A. No. It was, like I said, it was just like -- it was a this morning? 15 hole that you could see it, but I don't recall anybody telling 15 A. It sounds 17 a big hole that you could see. 17 like, in the middle of that first paragraph, he is talking about 18 Q. He suggested putting like the bags of beans and rice, 2 MS. PULLEN: Object to form. 2 the 25-pound bags in bins, but, at the time, um, I remember going A. To try to get it fixed. To try to get it filled or 3 3 out to go look, um, and then it was a point of, um, like who was dealt with 4 going to fund it, who was going to pay for it. Q. (MR. ALLEN) Okay. 5 5 Q. I see. 6 MS. PULLEN: Mr. Allen, could we take another break now 6 And where did you go look for the bins? 7 please? A. I went pretty much everywhere. 8 MR. ALLEN: Yes. Absolutely. 8 Q. Like what stores do you recall visiting? 9 (Recess taken from 12:31 until 1:16 p.m.) 9 A. I went to National Restaurant Supply, to Target, 10 10 Walmart, Home Depot. Q. (MR. It is -- I'll turned this sideways. 13 is being discussed here in this e-mail? 13 14 The Bates stamp is 19, Summit-Gen 19. 14 A. No, not in the stores. They were ordered. 15 Q. (MR. There is a couple communications towards the end 17 enough. Tell me a little about that. 18 18 of your discovery response that are similar. I just wanted to A. When we order, we have to order enough to last a month, 19 ask you a couple questions about them if I can. 19 um, per Summit. But then, um, we would have like fifteen 20 Can you read the date at the top, left-hand corner? 20 25-pound bags. So, we there is no way we could fit 15 bread and 21 21 A. And could you read the second sentence, the one 22 discussed with Ian at one point in time that we order weekly from 23 that says: As I arrived? 23 Sysco. So, we did get the bins and we started ordering like 24 A. As I arrived a little later, Fire Safety Sanchez stated 24 that we did pass, but because of rodent issue EID almost didn't 25 25 Q. So, by ordering weekly you didn't need to have as much

Yes. with why you're CPM is elevated. It's not necessarily one thing you can point at. Sometimes, inmates stealing food, taking food. 4 Q. Okay. And there is a sentence a little bit further 4 down that says, where you're explaining the waste logs for the 5 And it just -- it could be anything. 6 different food materials. And then it says that there was, 6 Q. That makes sense. 7 you know, some of these bags were chewed by mice. And, um, how big of a concern was waste of food for you 8 Can you tell me about the waste log? 8 at Western? 9 9 A. Um, it wasn't a big concern because it was always What is that? 10 A. Um, what we write down is how many bags we threw away, 10 justified. So, it was justified. It wasn't really a big 11 11 why we threw it away, um, to keep track like what was thrown out, 12 Q. And so when you say it's justified you mean you sort of 12 why. And like, if your CPM goes a little bit more, then you're 13 able to provide justification to the DM and the DOO. Like if 13 documented why there was waste? 14 you're -- like if you're shooting for 82 percent CPM, but now 14 A. Yeah. 15 it's 125, you have that justification. And, you know, if they 15 O. I see. I think I need some follow-up clarification questions. 18 to be thrown out because mice chewed into them? 19 What is the CPM that you're referring to? 19 A. Yes 20 20 A. Cost per meal. Q. Okay. And tell me how often that came up while you 21 21 were at Western, that mice would chew into the bags so that you Q. Cost per meal. And is that --22 22 That is written into your contract; is that correct? had to log it on this waste log? 23 MS. MOULTON: Objection, form and foundation. A. I don't think so. I don't think it's per contract as 23 24 far as in that contract. I know it just states like food, like 2.4 A. Um, like the whole time I was there or a certain time, 7 Q. And when you say be that, do you mean it's not always 7 going to meet the target? 8 Q. (MR. ALLEN) Yeah. Is this something that happened once 9 A. Yes. 9 a month or, you know, a couple times a year? 10 Q. Do you remember what the target was? 10 What was the frequency in which you put items onto a 11 A. And who sets that? 15 know, like every day, every other day. A. I have no idea. Q. (MR. ALLEN) Okay. So, up until, I don't know, 2020 or 16 16 Q. But did you -- is that a requirement from Summit? 17 something, you had, um, you were placing things at least every 18 A. Yes 18 other day on a waste log because they were chewed up by rodents 19 Q. So, it's not a requirement from corrections; is that 19 or had rodent feces in them or were otherwise touched by rodents. 20 right? 20 Am I understanding that correctly? MS. PULLEN: Form and foundation. MS. MOULTON: Objection, form. 21 21 22 22 MS. PULLEN: Foundation. 2.3 Q. (MR. ALLEN) Okay. And what are the kinds of things A. Yeah, we would document. We would document -- document 23 24 that would make it so that you didn't meet that CPM target? 24 what was being thrown out from the kitchen. 25 25 A. Like your waste of food, um, your accuracy in counting Q. (MR. ALLEN) And, um, who received those waste logs?

So, just describe to me what's going on in this 9 Q. (MR. ALLEN) Okay. So, just to make sure I understand, 9 communication. 10 Like why did you send this to Warden Martinez? 10 you're saying that the mouse traps didn't work to control the rodent problem in the kitchen at Western; is that correct? 11 A. Um, because the inmate, um, was filing a grievance, and 11 12 MS. MOULTON: Same objections. 12 it had to do with my staff and my AFSD at the time, Walley, 13 because she was defiant. I don't remember why we released a 13 Q. (MR. So, Ms. Wally became your, um, sort of the next 19 addressing any sort of waste? 19 person in leadership at Western or Summit? 20 Do you recall? 20 A. Yes. 21 Q. Okay. And so I know who Ian is. We talked about Anne 21 A. What I meant by that was like if I buy bins, because we 22 had tried it -- because you're talking about two separate areas. 22 It's not the same area. So, it started working where we had 23 23 Tell me who Mr. Branch is that's copied on this e-mail. 24 bread and roll mixes, which was then saving us inventory. I 24 A. On buying the bins, or? 14 and ask you what you did if you found contaminated food. 14 O. Just when she was the warden. A. What I did was, um, I would, um, pull it from the 15 15 Do you remember that? 16 coolers, initially check the sack where it was on, if there was 16 sacked food. And then I would put it in a plastic bag, double 17 17 Q. Was she the warden there when you started? 18 bag it and then let sallyport know that we had hot trash. 18 A. Yes, she was 19 Q. Okay. And do you recall that that happened 19 Q. Does it sound correct in your mind that she was the 20 warden there until the end of 2018? 2.0 infrequently? Frequently? 21 How often did that happen? 21 A. I believe so. I think so. A. Up until, like I had mentioned, maybe two years ago it 22 22 Q. Okay. All right. And, um, how many conversations did happened frequently. Frequently meaning like maybe every other 23 you have with Warden Lucero-Ortega regarding the, um, regarding 23 2.4 2.4 the bins, if you can recall? A. Like I had mentioned, it like wasn't the topic of 25 Q. Okay. And then two years ago it's stopped happening? 25 Page 99 Page 101 1 A. Because we, um, bought the bins. And then eventually, 1 discussion. You know, we just kind of went through our daily 2 meetings, um, telling about overall days. But it wasn't -- like um, Western did give us a whole new kitchen basically. 2 3 Q. Let me ask you about the bins. 3 we didn't carry on a conversation about my bins and the kitchen. 4 When did you first purchase bins? Q. Let me ask the question this way. 5 When did Summit first purchase bins of any type, any 5 Do you recall having more than one discussion with her 6 6 about the bins? A. Oh, gosh. I don't remember the exact year, um. A. I believe so. 8 Q. Do you recall having a conversation with Warden 8 Q. Okay. Did you have five conversations with her about 9 Lucero-Ortega regarding the bins when she was a warden? 9 the bins? 10 A. Um, I believe so. 10 A. I don't remember. 11 Q. And what do you remember about that? 11 Q. Okay. And was she, um, urging you to get bins in the 12 A. I let her know it was a suggestion from Mr. Sanchez to 12 kitchen, um, because of an EID inspection? 13 buy bins. 13 14 Q. Okay. 14 Q. Okay. It just came up as, from Mr. Sanchez, as a 15 A. And then that's when I asked her if the state was going 15 suggestion? 16 to buy them or if it's something that we provide. And it went A. Yes. 16 17 down into like the contract and smaller and then we just kind of, 17 Q. And do you remember when that came up as a suggestion 18 you know, ended the conversation there. 18 from Mr. Sanchez? 19 Q. I'm sorry. So, you didn't get an answer to the 19 A. I -- it was Mr. Sanchez that mentioned it like most, 20 question? 20 like a lot I guess you would say. It was always a suggestion, 21 A. Not a direct answer. Like I said, it was always a 21 but then, like I said, it always boiled down to who was going to 22 matter of what does the contract say, um, like what is the 22 pay for it. And that's when I just did due diligence and just 23 wording in the contract. Is it small ware? Is that considered 23 used my purchasing card and bought it. 24 small ware, and is it provided by the state? Is it provided by 24 Q. And Mr. Sanchez, I think, didn't start as FSSO until 25 Summit? 25 sometime in 2018, um, mid year, I believe.

Page 102 Page 104 Does that sound correct to you? 1 about bins? 2 I believe he came on as an officer and the position was 2 A. Just about who buys them, is it small ware or how -open. I think. I'm not sure how he became -- how he entered in 3 just the same thing I would ask Roberta, you know, just who pays that role, I guess is the way I'm putting that. 4 for them. And that's kind of the thing because sometimes they Q. And do you recall having discussions with him -- with 5 don't let you bring stuff in. 6 his predecessor about bins? 6 Does that make sense? A. Who would his predecessor be? 7 You are limited to bringing items into the prison 8 Q. The person that was in that job before, the previous 8 environment. So, that was another thing that we kind of had to 9 9 run by them before we actually brought it in. 10 A. Oh, okay. No, I don't. I don't. And I know who she 10 Q. And how was it that you were having the same was, Nicole Garcia. 11 11 conversation with Mr. Martinez that you had had with 12 12 Q. Correct. Ms. Lucero-Ortega about the bins? A. She would just give us a sack of mouse traps. 13 13 A. Because the mice were still getting -- were still 14 14 chewing the bags of like the bread and roll mix. So, it's just, 15 A. Not as helpful as maybe Mr. Sanchez was. 15 like I said, you -- you hear what Mr. Sanchez is saying, but then 16 Q. Okay. And so, in the course of your discussion with 16 there is also the all mighty dollar that who is going to pay for Mr. Sanchez, um, he suggested the bins, and then was that the 17 17 18 first time you purchased bins for the kitchen, for your dry 18 Q. And had you stopped buying bins and that led to the 19 goods? 19 bags being left out; is that what happened? A. Um --20 20 21 MS. PULLEN: Objection to form. 21 MS. PULLEN: Objection to form. A. I don't remember when I purchased the bins. I -- I 22 22 A. Um, we -- once we started getting the bins in, then don't remember. 23 23 that's when all of the mice started stopping. We didn't see as 2.4 Q. (MS. MOULTON) Did you purchase bins, um, more than one 24 much mice. 25 25 Q. (MS. MOULTON) Right. Okay. And then -- and then did Page 103 Page 105 A. Um, yes. I would have to keep like renewing them 1 you stop, um, stop buying the bins and then that resulted in more 1 because of the weight. Some of those bins weren't designed -chewing of the bags? A. No. We always had bins thereafter. 3 and then we always had to get the clear ones for -- for safety. 3 Q. So, do you recall how many times over the course of Q. Okay. your time at Western that you purchased bins for dry storage? A. We bought bins after that. 5 5 6 A. Um, like I said, it was something that I bought often, 6 Q. Okay. So, I guess, what I'm wondering is, if you had maybe every other month, um. Working with inmates, they're not purchased the bins and you were keeping the bins, why did you careful. They'll just throw the bags in there. So, once I would 8 have another conversation with Warden Martinez who came after 8 see a like a crack in it we would have to get new ones. And we 9 Warden Lucero-Ortega. 9 Does my question make sense? would have to get clear ones so the inmates aren't hiding stuff 10 10 in there. So, sometimes you could find them and sometimes you 11 A. Yeah. Yeah. I understand what you're saying. 11 12 12 O. Okav. Q. So, it sounds like you were -- you were purchasing them A. Because, again, it's funding. It's money that I 13 13 at least from the time that Warden Lucero-Ortega was there all 14 believe, um, the state should have helped with maybe. 14 15 the way until you left? 15 Q. Okay. And what was Mr. Tillotson's take on that? A. I would have to -- I would have to go back and -- if I What did he tell you to do? 16 16 17 needed to, I guess ask accounting, someone in accounting when I 17 A. He had just told me to use the card and go out and get 18 exactly bought them because I didn't buy them with cash. I 18 them. 19 bought them with a purchasing card. So, I can't answer that as 19 Q. All right. Mr. Sanchez, during the whole time was 20 exactly as you think I could. 20 telling you that you needed to get bins? A. Yes. Q. Okay. Let me ask you this question. 21 21 22 Did you, um, did you have a conversation about bins 22 MS. PULLEN: Objection to form. 2.3 with a warden other than Warden Lucero-Ortega? 23 Q. (MS. MOULTON) And, just so I'm clear, the bins were 24 A. Yeah, with, um, Mr. Martinez. 24 used for dry storage, they were used for no other purpose; is 25 Q. Okay. And what was your conversation with Mr. Martinez 25 that correct?
